

2016 BHEF Scholarship Recipients

Brice Beisher exhibits confidence, maturity and enthusiasm as he completes his highly successful high school experience. He now embarks on studies at Montana State University, seeking a civil engineering degree, with a clear intent to have a positive impact on the world.

Ashlyn Blare is an articulate, exuberant student who finds that life's challenges give her so much to say and so little time to do it. Her next step is to begin studies in psychology at the University of Wyoming, working toward a masters or doctorate degree to help as many people as possible.

Cassidy Enloe is graduating with an amazing academic record at both BHHS and Sheridan College. This success, combined with heavy involvement in school activities and community service, has shown her that she can really make a difference. She is now prepared to enter the chemical engineering program at the University of Wyoming.

Maxon Lube is driven to succeed and has in an impressive start with his stellar record in academics, sports and community service. He will continue his education at the University of Wyoming, seeking degrees in chemical engineering and business administration. He hopes to research biomedical devices to increase the quality of life for others.

Haley Madson leaves BHHS with a great academic record and history of involvement in school activities, exhibiting her bright, cheery attitude in moving toward future success. She will enter Sheridan College, starting toward a master's degree in special education, hoping to return to the Sheridan area to help young children.

Kaylin McKinley is a top student with a remarkable academic record. With great enthusiasm, she is setting out to find the color and shape of her stamp that will mark her imprint on the world, beginning with studies in marketing and international business at the University of Wyoming.

Nathan Motsick is an organized thinker with clear goals for himself as he finishes his time at BHHS. He will commence studies in mechanical engineering at Sheridan College. With a strong work ethic and great problem solving abilities, he dreams of creating devices that will be useful to other people.

Morgan Nance is an outstanding BHHS student, with numerous academic awards and varsity letters. She has set clear goals for herself with plans to study business administration and law, beginning at Colorado State University. She sees community involvement as the way to get the most out of her life, as she looks ahead to future challenges.
